## **CHARACTERISTICS**

Kind, good listener, self-starter, competitive, assertive, communicative, persuasive, friendly, firm, strong-willed, stubbornly independent, dependable, deliberate, persistent and thorough.

## **MANAGEMENT COMPATIBILITY**

Mr. Sample has the ability to direct an operation through his knowledge and expertise. He has an innate need to achieve results but likes to reach his goals in an organized and planned manner. He has the persistence to see a job through to conclusion, can cope with administrative duties and will take decisions within his area of expertise. He prefers the security of a structured environment. Work parameters should be defined and deadlines should be realistically set. Mr. Sample has the ability to communicate well with his people. He will also listen to their views and consider their observations.

Mr. Sample may have problems dealing with a general management role that is faced with ever changing situations and one where total flexibility is of paramount importance. If the environment becomes too fast and pressurized Mr. Sample may try to slow down the process. This could frustrate colleagues who wish to move quicker than himself, especially if they are waiting for decisions and action to be taken.

Mr. Sample is likely to be better suited to a management role that offers security within a structured working environment. Once the work pattern has been established Mr. Sample should be allowed to get on with the job and achieve results using his knowledge and expertise.

## **INTERVIEW HINTS**

Begin the interview slowly, allowing Mr. Sample to become confident and relaxed. This should indicate how he is likely to perform in a slow moving, specialist type role. If however the function in question is in general management, it is important to start to bring pressure into the interview. Quicken the pace, watch for his reaction, can he cope with pressure, does he come back strongly with his answers or does he attempt to slow things down again to a pace he can cope with?
